Guidelines

2007

public authorities community

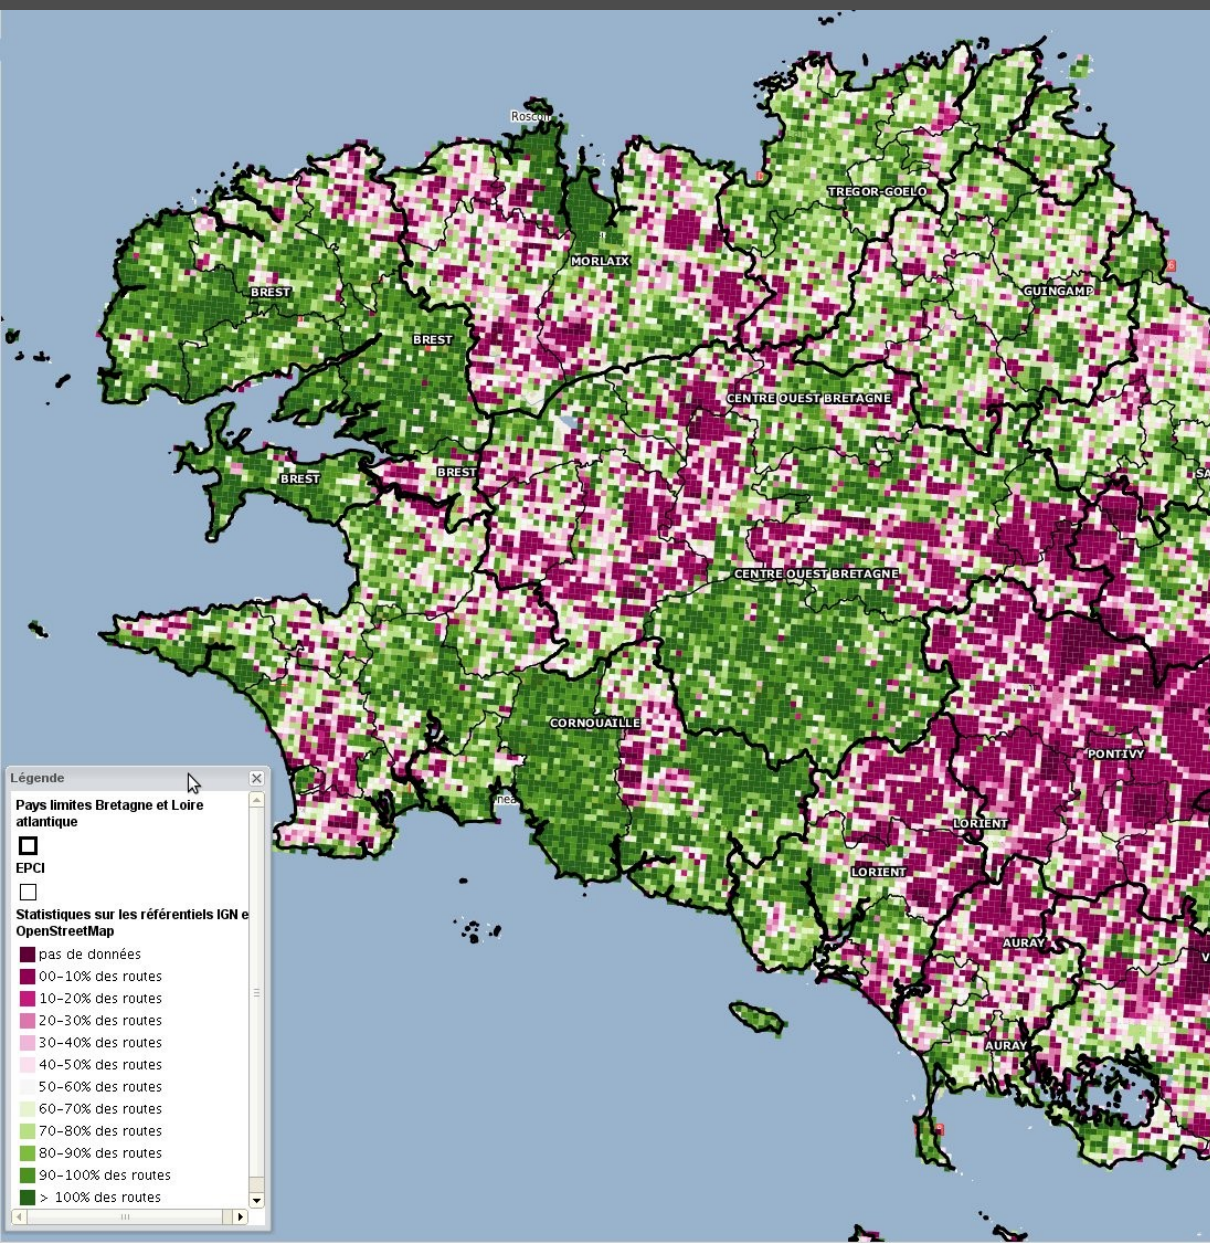

named **GéoBretagne**

share your datas... if you want

but you **MUST** provide :

- metadatas
- + view services
- + download services

- + how to do that (hard)

Decision #1 : opensource project

- develop a full stack INSPIRE infrastructure
- ... sponsor existing opensource projects

too hard for a single region !

Decision #2 : community project

- different people, regions, countries
